

Aspire Europe Limited
helping organisations to manage change

APM PROJECT FUNDAMENTALS QUALIFICATION

eLEARNING

Introduction

Project Management is the way of managing change. Everything from the Olympics to organising a wedding can be considered a project. It describes the activities that meet specific objectives and can be used to introduce or improve new or existing products and services that are separate to business-as-usual activities.

This [APM](#) Project Fundamentals Qualification will provide you with the fundamentals necessary to apply the key elements of Project Management including planning and scheduling, communication, teamwork, resource management, project risk management and project reviews.

This [APM](#) accredited blended eLearning course covers the latest version based on [APM](#) Body of Knowledge 6th edition and provides delegates with a sound introduction into project management fundamentals which can be carried from one job to another.

Target Audience

This course is intended for staff with little understanding or those new to project management and wishing to gain a broad understanding of the principles of the profession for example:

- Project Managers
- Project Assurance
- Project Support
- Project team members

Course Benefits

- Application of [APM](#) glossary of terminology
- Increased confidence to delegates in real world application of project management
- Thorough coverage of applicable [APM](#) BoK6 knowledge areas.
- Delegates will be fully prepared to take the PFQ examination either online or at a test centre.

Duration: 12 hours

Pre-Requisites: None
